If the emigrants do not arrive by the train by which they are due, the constable or peon deputed to meet them should wait at the station until the arrival of the next train in case the emigrants should have missed the train by which it was intended that they would come. The Magistrate or other authorised officer, as the case may be, after satisfying himself as to the identity of all the emigrants named in the chalan, by taking their thumb impressions and comparing the same with those shown on the chalan, shall sign the chalan and return it by post to the Embarkation Agent at Goalundo or Dhubri. The costs incurred by District Magistrates in connection with the repatriation of emigrants shall be recovered from the Embarkation Agent at Goalundo or Dhubri, as the case may be.

(*h*) When the railway station nearest to the native district of an emigrant is not in that district, the Magistrate of the district in which such station is situated, shall cause the emigrant to be sent to the Magistrate of the district concerned, who will comply with the procedure laid down in the last clause of the preceding rule.

(*i*) On the receipt of the chalans from the District Magistrates, the Embarkation Agent at Goalundo shall inform the Deputy Commissioner of the Labour District from which the emigrants were sent to Goalundo of their safe repatriation, and at the same time forward to him a memorandum showing the expenditure incurred by him on that account in order that steps may be taken for the recovery of the amount from the employer or employers concerned.

(*j*) The amount so claimed shall consist of the railway fare and diet-money of the emigrants, cost of telegraphic messages to District Magistrates, and, in the case of emigrants despatched under escort, the railway fare and diet-money of the peons, as well as their pay at the rate of four annas *per diem* for the number of days during which they may be absent from head-quarters, and of costs duly incurred by District Magistrates in sending emigrants home: it shall also include any other charges which the Embarkation Agent may incur in this connection, such as the cost of the diet of emigrants and of providing them with temporary accommodation during their stay at Goalundo. The sum, when recovered

will be deposited in the local Treasury by the Embarkation Agent to the credit of the Inland Labour Transport Fund.

(*k*) In the case of emigrants whose labour contracts are determined on their arrival at Goalundo while *en route* to the labour districts, the Embarkation Agent shall arrange for their repatriation, observing, as far as practicable, the same procedure as that laid down in rules (*b*) to (*f*) for the repatriation of emigrants returned from the labour districts.

(*l*) The cost of repatriation, which may include all or part of the items of expenditure mentioned in rule (*j*), shall be recovered in such cases from the garden-sardar or other person in charge of the emigrants, or, in default, from the employers.

N.B.—The pay of peons should, on recovery, be placed to the credit of the Inland Labour Transport Fund in the local treasury.

(*m*) When labourers are released from their contracts at any place intervening between the districts of registration and the ports of embarkation, the Magistrate shall pass orders for their repatriation, and cause the procedure laid down in rules (*b*) to (*f*) to be followed as closely as practicable.

(*n*) The charges incurred by a Magistrate in the repatriation of emigrants and their dependants, if any, shall be paid by him in the first instance from his contingent advance. The pay of constables or permanent peons employed as escorts will not be advanced. It will, however, be recovered (calculated for the number of days during which they may be absent from head-quarters) along with the other charges incurred by the Magistrate, from the garden-sardar or person in charge of the emigrants, or, in default, from the employer of such garden-sardar.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" :—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section

XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14. In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18 In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 1984L.S.-G.—The 9th April 1904.—It is hereby notified for general information that, in exercise of the power conferred on him by clause (i) of section 138 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to make the following rule in supersession of Rule 9, Part IXA of the rules made under the aforesaid section and published under Government notification dated 1st July 1838. This rule substitutes for the existing District Engineer's Form No. 7 and its second supplement, the form reproduced below and marked "District Engineer's revised Form No. 7," but the existing first supplement remains unchanged :—

Rule 9.—The expenditure on each work will be brought together from the vouchers, &c., passed by the District Engineer and entered in the "Works Abstract" (Revised Form No. 7), which shows the expenditure on the work under different sub-heads. In the case of works costing less than Rs. 2,500, it is not necessary that the expenditure should be shown under so many sub-heads, and half-sheets of revised Form No. 7 may be used. The abstract should be supplemented by an account showing materials at site, which should be kept in the form designated "First supplement to Form No. 7."

L. P. SHIRRES,
Secretary to the Govt. of Bengal.

NOTES.

THIS form of works abstract will be used for works the outlay on which is recorded by sub-heads.

2. The works abstract will be posted day by day from cash-books; stock and adjustment transactions will be added at the end of the month, and the aggregate totals be posted by sub-heads in the register of works. The statement on the reverse of the outer sheet affords a means of tracing the source from which the record of progress is obtained.

3. The particulars of the progress and the quantities of materials received and issued are obtained from a supplement furnished at the close of the month by the officer in charge of the work, the rates and values of the materials entered in this document being filled in the District Engineer's office.

4. Generally speaking, liabilities will be taken to account only in the case of partly paid-certificates, bills, and muster-rolls: whenever sums not actually disbursed are charged against a work, the amounts unpaid must be entered in the deduction columns provided, in order to bring out the net amount paid in the column headed "Total cost." When subsequently paid, these sums must be posted as *minus* entries in the deduction columns, and as *plus* entries in the column "Total cost."

which the northern extremity of Holley island bore N. 85° E., distant 8¼ cables, and the 518-foot hill N. 19° E.

Approximate position lat. 30° 34½′ N., long. 121° 7′ E.

Farquhar, H.M.S. *Vestal,* that when his vessel was steering to the north-eastward off the north coast of Formosa, about 10 miles N. 65° W. from Foki Kaku, a sounding of 11 fathoms, rocky bottom, was obtained in approximately lat. 25° 22¾′ N., long. 121° 21½′ E., at the same time breakers were observed at a distance of about 1½ or 2 miles to the south-eastward.

Thick weather prevailed at the time, so that no bearings were obtained, and the position, depending on the reckoning, must be considered doubtful.

It must also be considered doubtful whether what was seen was a breaker over a danger, or merely an overfall caused by a tide rip over part of the foul ground.

Masters of vessels, pilots, and others are hereby informed that a large Buoy, painted black, with staff and diamond-shaped head, has been placed in *18* feet O. L. W., with Shoal-water Point bearing N. W. ½ W., distant two and-a-half miles.

Approximate position:—

Lat. 33° 42′ *20″* South.
Long. 137° 15′ *15″* East.

Mariners navigating Spencer Gulf north of Tipara Shoal are cautioned against making too free with the western shore, as between Franklin Harbour and Point Lowly the shoal water extends in several places from one and-a-half (1½) miles to four (4) miles from the shore line, which in many places is very low and often distorted by mirage.

Vessels beating up or down the Gulf against strong head winds are therefore cautioned to keep about the middle of the Gulf, towards the Middle Bank Lightship, which may be passed close to. They may also anchor anywhere north of Tipara Shoal and await a slant of wind.

The exact position of this bar is not known, but the depths over its southern part are from 17 to 18 feet, and over the northern part from 20 to 22 feet.

The wharves in the harbour are difficult of access on account of the cross currents, and silting has reduced the depth alongside them all, so that now only 14 feet can be relied on.

Vessels are not allowed to navigate the Klang river, and they cannot use Lúmut strait.

Approximate position, lat. 3° 0′ N., long. 101° 23′ E.

This Notice affects the following Admiralty Chart:—Kwala Klang, No. 2153: Also, China Sea Directory, vol. I, 1896, pages 173, 174, 175; and Supplement, 1899, page 14.

Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Forecast of the Rabi Crops of Bengal for 1903-1904.

Explanatory.—This forecast furnishes estimates of the area and outturn of the *rabi* crops, with the exception of wheat, cotton, oilseeds, and sugarcane, for which separate forecasts are issued. The crops included in this forecast are summer rice, barley, gram, tobacco, poppy, and other food and non-food crops which are harvested between February

and April. These latter embrace the important pulses, *rahar*, *kalai*, *mung*, peas, lentils, *khesari*, and *kurti*, also buckwheat, *cheena*, potatoes, yams, melons, *chillies* and other spices, as well as oats and *rabi* vegetable crops.

2. *The character of the season.*—The heavy October rains favoured the retention of moisture by the soil for the *rabi* crops. In November light showers were obtained all over the Province except in Bihar, where, however, the bulk of the *rabi* crops is raised. In December there was hardly any rain. The crops in Bihar were much benefited by the January rains. Light showers were also obtained in January in Chota Nagpur and North Bengal. In February the rainfall was more copious and general. On the whole, therefore, the season was favourable for the growth of crops.

3. *Area sown.*—Excluding the areas under wheat, oilseeds, cotton, and sugarcane, the normal area sown with the various *rabi* crops in the Province amounts to, according to the District Returns, which are summarised in Appendix I, 10,053,300 as against 10,071,800 acres, which was the normal area shown last year. The change is due to the revision of estimates of normal area under the crops under report by the District Officers of Midnapore, Pabna, Tippera, Darbhanga, Bhagalpur, and Ranchi. The area actually sown this year is estimated at 9,606,200 against 9,242,200 acres sown last year.

4. *Outturn.*—From Appendix I it will be seen that Darjeeling and the Sonthal Parganas expect a crop of over 100 per cent. Six districts, viz., Rajshahi, Rungpur, Backergunge, Pabna, Gaya, and Malda expect 100 per cent. crop. In thirteen districts the estimates vary from 90 to 99 per cent., and in twelve others between 80 and 89 per cent. Eleven districts anticipate a crop between 60 to 79 per cent., while Jalpaiguri expects an outturn of 51 per cent.

According to the estimate of the District Officers, the outturn for the Province, as a whole, amounts to only 87 per cent. of a normal crop as against 86 per cent., which was their estimate for last year. Considering, however, the favourable conditions that generally prevailed this year for *rabi* crops and specially for the summer rice, I would raise the general estimate to 90 per cent., and the estimate in the case of summer rice to 95 per cent.

5. *Gross outturn of summer rice.*—As shown in Appendix II the gross yield of summer rice for the Province may be put down at 2,923,800 cwt. as against 3,283,300 cwt. of last year.

CALCUTTA,
The 30th March 1904.

The decrease in area under *barley*, *boro*, *tobacco* and miscellaneous non-food crops is due to want of rain during the sowing season. The increase in the estimated outturn is due to seasonable rainfall after sowing.

The decrease in the area sown is reported to be due to the floods of October last, which prevented a large area from being sown. The decrease in the outturn is reported to be due to want of rainfall.
I have been over most of the district on tour and find everywhere a large area sown in *rabi*, as winter rice could not be sown in many places owing to lateness of rains. The *rabi* crops in the north are the best I have ever seen, and are admitted by the raiyats to be very good, and in other places the crop is at least average to good. I send the returns for what they are worth.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; p, passing temporary showers; t, thunder; ⌿, lightning; ⌇, strongwind.

[Second Publication.]

The 11th April 1904.

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14 In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the deges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

No soundings appear to have been taken.

The Government of Tasmania has also given Notice, dated 31st December 1903, that five Masters of Ships have reported that a rock exists in this vicinity, but as the positions given by them differ, about 4 miles both in latitude and longitude, it is quite impossible to place it on the Charts with any degree of accuracy. Thick weather prevailed at the time, so that no bearings were obtained, and the position, depending on the reckoning, must be considered doubtful.

It must also be considered doubtful whether what was seen was a breaker over a danger, or merely an overfall caused by a tide rip over part of the foul ground.

RESOLUTION ON THE HOWRAH BRIDGE BUDGET ESTIMATE FOR THE YEAR 1904-1905.

No. 676 Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 14th April 1904.

RESOLUTION.

Howrah Bridge Budget Estimate for the year 1904-1905.

READ—

Letter No. 7735 of the 26th March 1904, from the Vice-Chairman of the Commissioners of the Port of Calcutta, forwarding the Budget Estimate of the Howrah Bridge for the year 1904-1905.

RECEIPTS.

The total receipts for 1904-1905 have been estimated at Rs. 1,64,125, against Rs. 1,70,750 of the previous year, showing a decrease of Rs. 6,625. The decrease is chiefly due to a reduction on account of interest owing to Rs. 3¼ lakhs having been withdrawn from the Reserve Fund for the purchase of two

new ferry boats. The receipts from Railway Traffic have been estimated at almost the same sum as last year. Although the total receipts are less than those of the year 1903-1904, the financial position of the fund has been improved, as the estimated deficit will be only Rs. 8,500, against the deficit of Rs. 28,250 of the preceding year.

EXPENDITURE.

2. The expenditure has been estimated at Rs. 1,72,625, against Rs. 1,99,000 for the year 1903-1904, showing a decrease of Rs. 26,375. The largest item of decrease in the expenditure is under the head "Miscellaneous," under which head a sum of Rs. 54,000 was provided for in the Budget last year for the hire of steamers for conducting the ferry service. During the year under review no such provision is necessary.

3. As compared with the receipts that have been estimated for (Rs. 1,64,125), there will be a deficit of Rs. 8,500, and this amount will be met from the Reserve Fund of the Bridge.

4. The Lieutenant-Governor sanctions the estimate under section 21 of Act IX (B. C.) of 1871.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secy. to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MARCH 1904.

PRESSURE was slightly below normal on the 1st of the month over the province, while temperature was in general excess, and fine calm weather with westerly winds prevailed. During the first three days of the month pressure fell steadily but slowly. A small disturbance was apparently affecting the weather during this time and was accompanied by a slight fall in day temperatures.. On the 4th pressure began to rise, and though the rise was slightly checked on the 5th and 6th it continued with greater rapidity on the 7th and 8th, the pressure on the latter date being in moderate excess throughout. On the latter date a sharp fall set in which continued till the 10th. During the whole of this period the area of lowest pressure lay over the north of Bengal, and owing to the irregular and somewhat cyclonic circulation of winds to which it gave rise, the weather was feebly disturbed and numerous thunderstorms were experienced over the province. Though temperature varied irregularly during this disturbed period, mean temperature remained generally in excess chiefly owing to abnormally high night temperatures. From the 11th to the 15th only slight oscillations of pressure took place, but the distribution changed its character and seemed to indicate the passing of a feeble disturbance from the province into the bay. Owing to the variable direction of the winds, the weather continued somewhat unsettled and showery over the province. On the 15th, however, the distribution had reverted again to the ordinary hot-weather character and weather was generally fine. With the dry north winds which accompanied the passage of the area of low pressure southwards on the 11th, a sharp fall of temperature set in, and although with the reversion of winds to the south on the 15th a reaction set in, mean temperature remained below normal up to the 16th of March. Pressure continued to oscillate steadily and uniformly between comparatively small limits during the remainder of the month, the period of a complete oscillation never exceeding four days. The deviation from the normal was consequently never very great, and as the motion was slow, the character of the weather was very settled till the end of the month. The extent and period of the oscillations will be indicated by stating that pressure which was below normal on the 16th fell on that date, rose on the 17th and 18th, was steady on the 19th, rose on the 20th and 21st, fell on the 22nd, was steady on the 23rd, rose on the 24th, was steady on the 25th, fell on the 26th and 27th, rose on the 28th and remained nearly steady during the last three days of the month, when it was almost normal. The distribution of pressure was practically that of the hot weather and remained unchanged during this period, with highest pressure in the south and the lowest over the province. Winds blew steadily from the south-west over the southern half of the province and were generally light. Only on the 24th, 25th and 26th was there a deviation from this steady direction of the winds owing to the formation of a diffused depression over Bengal. With the setting in of the southerly winds on the 16th temperature began steadily to rise. It oscillated slightly between the 19th and 23rd, but with this exception temperature remained above the normal with a general upward tendency till the end of the month. On the 31st of March mean temperature was everywhere in excess, the excess amounting to as much as 7° at Malda.

General Summary of Weather.—During the first-half of the month weather was feebly unsettled, small and shallow areas of depression passing over Bengal in different directions during that period. The distribution of pressure was undergoing a change from the 1st to the 15th, and the change was naturally accompanied by irregular winds and the usual concomitant thundershowers. During the latter-half of the month, on the other hand, the circulation of winds was steady and of the usual hot-weather character. As, moreover, the gradient at the head of the Bay was not sufficiently strong to produce a strong indraught of wind, and as, moreover, the distribution was such that the winds were from the south-west and not from the south-east, and consequently not surcharged with moisture, the conditions for the usual nor'wester thunderstorms, which are prevalent at a slightly later period, were wanting, and the weather during the latter half of the month was fine and settled.

Summary of Pressure.—Pressure during the whole of the month was characterised by uniform "surges." This was especially the case during the latterhalf of the month, but even during the first half, although slight local depressions existed, they were exceedingly shallow and consequently did not markedly affect the general rise and fall of the barometer common to the whole area. As the amplitudes of the various oscillations on each side of the mean were fairly equal, the average pressure of the month differed from the normal nowhere to any great extent, with the result that there was a very slight and almost uniform defect of mean pressure below the normal over the whole of Bengal.

Summary of Temperature.—As will be seen from the account of the weather from day to day, temperature was very seldom below the normal, the general tendency being upward except for the periods from the 11th to the 15th and from the 19th to the 23rd of the month. Mean temperature is consequently above the average for the month except in Chota Nagpur. The greatest excess was in East Bengal and the least in South-West Bengal. The maximum excess was 2·7° at Faridpur. Mean maximum was likewise above normal over almost the whole province, the exception being again Chota Nagpur and a small part of

South Bihar. In the case of mean minimum temperature the deviation from the normal is more irregular and likewise generally of less amount, the greatest excess being 2° at Noakhali and the greatest defect 2°·7 at Hazaribagh.

Summary of Rainfall.—Rainfall was on the whole scanty during the month except in Chota Nagpur. The chief rainfall occurred during the distribution period at the beginning of the month. Chota Nagpur was the first area to come under the influence of the unsettled weather, slight showers having been received there as early as the 1st, but general rain did not commence in that quarter till the 3rd, on which date Bihar also came within the influence of the disturbance. The unsettled weather then gradually extended eastwards, its effects being felt as late as the 19th in East Bengal. Slight showers were also received in Orissa and Ranchi between the 23rd and 25th. Taking the whole month, East and North Bengal received considerably below their normal amounts, while in South-West Bengal the rainfall was practically average. In Orissa and Bihar the defects were slight.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of March 1904:—

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I. - To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14 In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the deges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels* —Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26 For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

NOTIFICATION.

No. 176T.G.—The 19th April 1904.—The following is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

Extract from a letter from A. EARLE, ESQ., I.C.S., *Secretary to the Government of Bengal, General Department, to the Director of Public Instruction, Bengal, No. 174T.G., dated Darjeeling, the 19th April 1904.*

I AM directed to acknowledge the receipt of your letter No. 4072, dated the 25th March 1904, in which you report that, in order to perpetuate the memory of Mr. B. De, late Magistrate and Collector of Balasore, some of the leading gentlemen of Balasore have offered to invest the sum of Rs. 1,100 in $3\frac{1}{2}$ per cent. Government securities for the creation of a Trust Fund to be called the "B. De Fund," the interest of which will be spent in awarding a scholarship of Rs. 4 a month, tenable for three years at the Balasore Zilla School, to the student attending any of the schools of that district, who stands first in the examination for Middle English Scholarships.

2. In reply, I am to say that Government is pleased to accept the offer, and desires that its thanks may be conveyed to the "B. De Memorial Committee" for their liberality.

APPOINTMENT OF A COMMITTEE TO REPORT ON THE WORKING OF THE EXISTING SEPTIC TANK INSTALLATIONS IN BENGAL.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Darjeeling, the 20th April 1904.

RESOLUTION—No. 236T.—M.

READ—

Letter to the Government of India, Home Department, No. 867T.—M., dated 29th May 1903.

Letter from the Sanitary Commissioner, Bengal, No. 3216D., dated the 14th October 1903.

Memorial from certain inhabitants of Rishra, etc., in the Serampore Municipality, dated the 18th January 1904, complaining of the pollution of the river Hooghly by the effluent from septic tanks.

Letter No. 62M., dated 25th January 1904, from the Commissioner of the Burdwan Division.

Questions and answers at the meeting of the Bengal Legislative Council of 2nd February 1904, on the subject of septic tanks.

Letter to the Sanitary Board, No. 721M., dated 9th February 1904.

Letter No. 306S.B., dated 22nd March 1904, from the Secretary to the Sanitary Board, with enclosures.

In the letter to the Government of India cited above it was stated that the Lieutenant-Governor, after reviewing all the evidence before him, entertained no doubt that the conversion of crude sewage into an odourless and non-putrescible fluid can be accomplished under proper conditions, and that this is a most valuable and useful result. It was noted, however, that further experiments were necessary to determine the amount of work which could be done by a septic tank under different conditions, the quantities of water required, the efficacy of the effluent as liquid manure and other details. His Honour therefore determined to proceed further with the experiments, and accorded sanction to the construction of a septic tank by the Muzaffarpur Municipality.

2. Meanwhile the increase in the number of septic tanks in the mills on the banks of the Hooghly, which has been very rapid, has rendered it necessary that the conditions on which such installations can be permitted shall be determined without delay. That the system when successfully worked constitutes a great advance in the application of scientific sanitary methods the Lieutenant-Governor has no doubt. Unfortunately this result has not yet been fully attained; and objections, to some extent well founded, have been raised to the discharge of the filtrate or effluent into the river. It is a matter of urgent necessity, therefore, that a speedy solution of the problem should be arrived at, in order on the one hand that the large expenditure incurred by the mill-owners may not be thrown away, and on the other that the objections referred to may as far as possible be removed.

3. The question is also of more than local importance; for if these installations can be made to perform all that has been claimed for them, they will no doubt be adopted in all the large Municipalities in the Province, and will remove what has hitherto been one of the greatest difficulties of municipal administration. For this reason also Sir Andrew Fraser has given the whole subject his most careful consideration.

4. The Sanitary Board, who were consulted, have represented that they are unable to advise until orders are passed on the following points raised by the Committee of the Jute Mills Association, viz.—

(1) What is the distance above and below Palta and Serampore within which the discharge of the filtrates from septic tank installations without further treatment will not be permitted?

(2) Will Government be satisfied if the filtrates are passed through sand before being passed into the Hooghly?

(3) What is the standard of purity on which Government will insist?

5. In order that the questions referred by the Sanitary Board may be fully enquired into, and also in order that the best methods of dealing with the whole problem may be ascertained, His Honour has been pleased to appoint the following Committee to report on the working of the existing septic tank installations in Bengal, and on the means which should be adopted to render the system efficient and free from objection :—

Colonel S. H. Browne, C.I.E.	*President.*
The Hon'ble Mr. D. B. Horn	*Members.*
Major F. C. Clarkson, I.M.S.	
The Hon'ble Mr. L. P. Shirres, I.C.S., Secretary to the Government of Bengal in the Municipal Department	*Secretary.*

6. In addition to dealing with the three specific questions set forth above, it will be the duty of the Committee in the first instance to ascertain the actual facts as to the existing installations. In this connection they will have to consider carefully the construction and situation of the structures, and the character, chemical and otherwise, of the effluent which is discharged. It will also be their duty to examine the different methods by which the effluent can be disposed of. Three methods are referred to by the Sanitary Board, namely, (*a*) by turning the filtrates over land, (*b*) by using them as feed water for the boilers, and (*c*) by discharge into the river after filtration through sand. The second of these ways, which is said to be in use in America, would if it could be adopted apparently solve the problem in the case of the Hooghly Mills. If discharge into the river is permitted, the Committee should report the conditions which they consider necessary in order that this may be done without detriment to the public health. Lastly, the Committee should advise what changes require to be made in the existing installations and in their methods of working, so that the best results may be obtained.

ORDER—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that copies, together with copies of the papers read in the preamble, be forwarded to the President and Members of the Committee for information.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secy. to the Govt. of Bengal.

RESOLUTION ON THE BUDGET ESTIMATE OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1904-1905.

Estimated surplus ...	39,602

2. The estimated gross increase based on the existing schedules of rates and charges amounted to Rs. 79,21,760; but proceeding on the principle which has guided the Commissioners during the last two years that the river due on goods should be maintained at the rate of four annas per ton, and that the charges for the use of the Jetties or other similar charges should be reduced, the Port Commissioners have again resolved to make further concessions to the trade

to the extent of Rs. 1,20,000, thus reducing the estimate to Rs. 78,01,760. The reductions made are on the following heads:—

	Rs.
Harbour Master's fees for work done before and after the regular working hours	14,000
Charges for transporting vessels	36,000
Reduction in the rate of hire for the 30-ton crane	20,000
Ditto of wharfage rate on imports	50,000
Total ...	1,20,000

3. In the year 1902-1903 charges payable on goods and vessels were reduced to the extent of Rs. 1,76,000 per annum, and again on 1st April 1903 these charges were further reduced by Rs. 2,28,000, and now it is proposed to make further reductions to the extent of Rs. 1,20,000. An annual reduction in the income of the Commissioners, amounting to Rs. 5,24,000, is caused by these measures, and the Commissioners are to be congratulated on their ability to make this large concession and still be able to keep the Trust property in a satisfactory condition.

The expenditure is estimated at Rs. 51,09,497, showing an increase of Rs. 88,905 on the figures of the preceding year. An abstract comparing the estimates of the two years is given below:—

	1904-05.	1903-04.
	Rs.	Rs.
Establishment	20,80,689	19,70,599
Stores	3,71,575	3,57,623
Maintenance and repairs	7,08,045	8,10,365
Labour	12,49,930	11,55,060
Miscellaneous	6,63,061	6,89,750
Police	61,217	61,199
Unforeseen expenditure	20,000	20,000
	51,54,517	50,64,596
Deduct chargeable to Capital account ...	45,020	44,004
Total ...	51,09,497	50,20,592

4. It is satisfactory to notice the large decrease under "Maintenance and Repairs," but, on the other hand, the saving is more than counterbalanced by an increase under "Establishment." This is an item of expenditure which needs to be closely watched. An examination of the schedule shows that in some cases the status of existing appointments has been raised. As the limit of salary of each appointment over Rs. 500 a month requires the sanction of Government, no increase should be allowed in excess of this limit without such sanction. Increments within the maximum pay of the appointment should not be given before due date without the previous sanction of Government.

CAPITAL.

5. The capital budget provides for an expenditure of Rs. 36,92,563 on new works and of Rs. 4,28,000 on renewals of vessels and a timber jetty, making a total of Rs. 41,20,963. The greater part of the expenditure on new works will be spent on works already sanctioned by Government. It is proposed to obtain the funds for capital expenditure by a debenture loan, an application for which will be made later in the year.

6. In pursuance of the powers vested in him by section 71 of the Calcutta Port Act, 1890, the Lieutenant-Governor approves of the estimate of the income and expenditure of the Commissioners for the year 1904-1905.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secretary to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓ dew.

N.B.—In the week's report from 20th to 26th March 1904 read 29·789 for 29·879 as the average pressure of the corresponding period for 24 years, Surveyor-General's Office.
